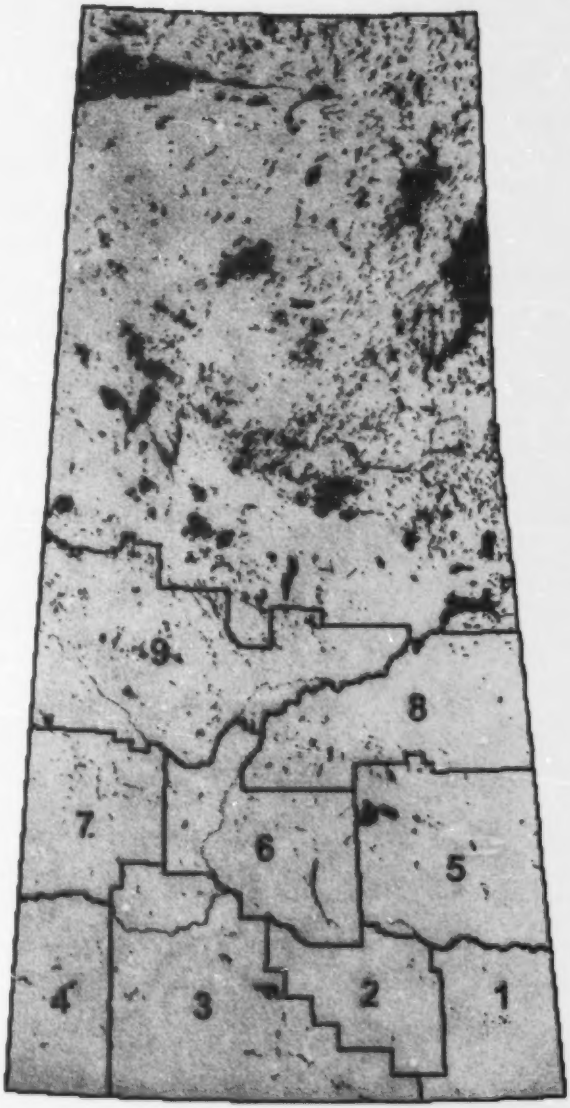
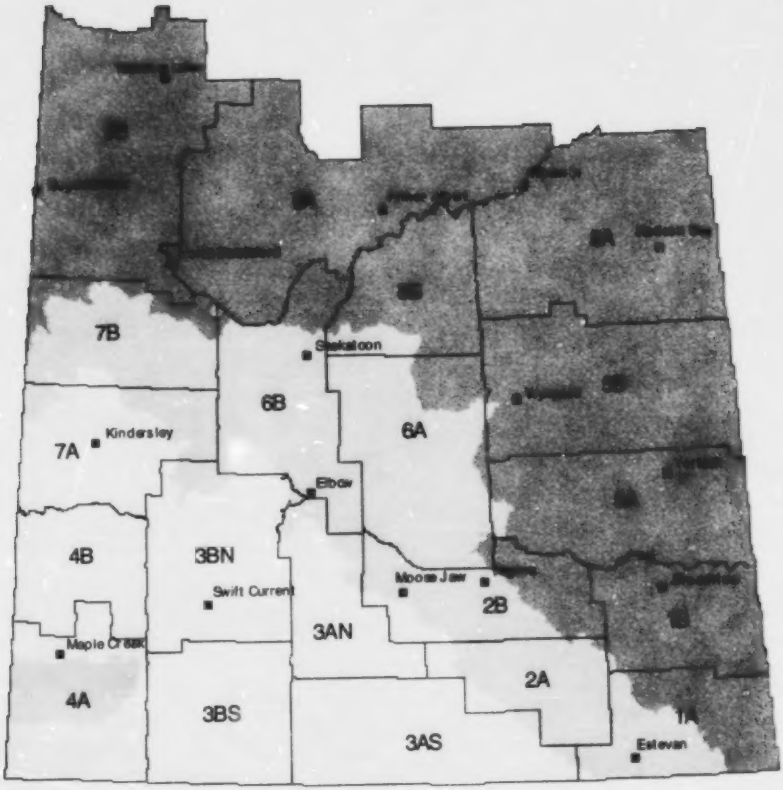
Agricultural Statistics 1999





The above map shows an outline map of southern Saskatchewan indicating the crop districts and soil zones. Much of the crop and livestock production data in the handbook is presented by crop district. The soil zone demarcation shows the variation in growing conditions.

As most of Saskatchewan's soil is predominantly of loamy texture, production capabilities are determined largely by weather conditions and the presence of organic matter. The brown soil zone covers approximately 22 million acres in southwest Saskatchewan. The relatively warm temperatures, lack of moisture and lack of organic matter in this region limit crops to small grains and the use of grassland for livestock production.

The dark brown soil zone, covering 18 million acres, lies north and east of the brown zone. A small area, with the characteristic cooler temperatures and more moisture, is also evident around the Cypress Hills in southwest Saskatchewan.

The black soil zone covers nearly 26.5 million acres in the north and east of the agricultural area. The growing period is shorter but the lower temperatures and increased moisture allow for a wider variety of cropping practices.

FOREWORD

Agricultural Statistics 1999 is the twenty-fourth statistical handbook and includes statistics on agricultural finance, crops, livestock, weather and climate. Updated information for many of the tables contained in the handbook are available electronically on the Saskatchewan Agriculture and Food Internet site.

Sources of the information contained in this handbook include Statistics Canada, Agriculture and Agri-Food Canada, Canada Grains Council, Canadian Wheat Board, Canadian Grain Commission, Canadian Transportation Agency, Canadian Cattlemen's Association: Canfax Research Services, Environment Canada, Farm Credit Corporation, Manitoba Department of Agriculture, Saskatchewan Crop Insurance Corporation, Agricultural Credit Corporation of Saskatchewan, Saskatchewan Water Corporation, Sask Pork, SPI Marketing Group, Saskatchewan Sheep Development Board, Saskatchewan Milk Control Board, Saskatchewan Turkey Producers Marketing Board, Saskatchewan Chicken Marketing Board, Saskatchewan Commercial Egg Producers Marketing Board, Agricultural and Food Products Development and Marketing Council (Agri-Food Council), Saskatchewan Bureau of Statistics, and Branches of Saskatchewan Agriculture and Food.

We hope the handbook will be useful to agriculture's decision-makers: producers, agribusiness and government. We welcome suggestions for changes and improvements. If you have any comments or enquiries please contact:
